International Journal of Accounting and Business Finance (IJABF)

International Journal of Accounting and Business Finance (IJABF) is a peer reviewed scientific bi-annual journal published by the Faculty of Management Studies and Commerce of the University of Jaffna.

Aims and scope

IJABF aims to publish high quality, original papers of a theoretical, empirical, or clinical nature that analyze issues related to accounting and finance and economics. IJABF will provide forum for presenting the views of academics, researchers, practicing managers and other professionals all over the world, on different accounting, finance and economic issues of contemporary relevance.

Topical areas of interest include, but are not limited to: Financial markets, financial institutions, risk analysis, financial policy/structure, payout policies, financial contracts, corporate governance practices, corporate restructuring, the economics of organizations, micro finance, the influence of legal structures, international financial management, disclosure and corporate social responsibility and the accounting and financial aspects of transition economies .

Review Process

The IJBF has a two-stage review process. In the first stage, each paper must be initially evaluated by at least one editor to decide that a paper should go to a reviewer. If a paper passes through screening at this level, the paper is sent to two referees one from Sri Lanka and other from abroad for blinded review with detailed comments.

The review process may take one/two months. Researcher will be requested to incorporate the suggestions of the referees.

In case of acceptance of the paper(s), IJABF reserves the right of making modifications in the final draft of the research paper to suit the journal's standard and requirement.
